

# Yilun Chen for Merton JCR Treasurer

## A bit about me:

Hi, I am a **first year Economics and Management student** from Germany (by accent) or China (by looks, I guess) with a great fascination for numbers and anything else you can count!

## My beliefs:

A JCR Treasurer should ensure maximum **transparency** of accounts and take a **holistic look** at the financial aspects that affect all JCR members.

## My qualifications:

As part of the **JCR rents committee**, I have already been involved in looking into relevant finance issues that affects the whole JCR, and though we ultimately could not stop the rents increase, we could shed some light on that issue. Through my involvement as **CFO** at *Oxford Tutoring*, a startup social enterprise, I have also gained experience in handling accounts and dealing with payments.

## My plans:

- Publish accounts online for **real-time access** to the JCR's finances (Google Documents)
- **Maximize interest revenue** by setting up savings accounts (Lloyd's 2.5%)
- Negotiate with college to **minimize future increases** in living expenses
