NB. Equal sums of money were given to each of the charities by mistake. Some people reallocated their money to different charities, but I did not realize this when I wrote out the cheques. In practice, the difference between what a charity should have received and what they did receive is only £2 or £3. Angel will correct for this year's mistake, with appropriate re-allocation, when he sends out cheques for 08/09. £1500 just seemed like a nice, round number. Apologies to those who this affects, Ben.
